Mr. Hankey's Extreme Sex Toys

Let's face it: sometimes even the real thing needs a little help. Fantasy is a huge part of everybody's sex life, and sometimes a prop, like a toy, it can go a long way in making that fantasy feel more real.

For some this means a handy (and hand-filling) companion in a nightstand drawer. For many others, toys are just one part of how they have fun with a partner.

Hankey's Toys proudly handcrafts the best silicone dildos on the internet. From painstakingly-molded realistic toys, to toys drawn completely from the realm of fantasy, Hankey's Toys has it all.

What Sets Hankey's Toys Apart from others?

Hankey's Toys are handmade Toys from the finest materials, using molds they craft themselves in order to meet the exacting specifications.

Mr. Hankey's work hard to give each of their toys that perfect level of firmness to create believability, while also making our toys comfortable and pleasurable to use.

- The Finest Materials
- Handcrafted For Your Pleasure
- Perfectly Firm
- Designed for Maximum Intensity
- Compatible With Many Attachments, Strap-ons, and Sex Machines'
- Fast Shipping and Best Customer Service

The Finest Materials - 100% Platinum Silicone

Mr. Hankey's Toys hand craft all of their toys from the world's finest 100% platinum silicones.

Mr. Hankey's are known for using ultra-high performance-grade silicone in their product, tested with ISO 10993-10 standards for irritation and skin sensitization.

All platinum silicone toys are odor free, 100% skin safe, and they will not shrink over time or melt when placed in contact with other toys.

Mr. Hankey's Toys are meant to provide a lifetime of fun!

What Are these Mr Hankey's Toys Giant Dildos?

Mr. Hankey's Toys offer toys ranging from the tried-and-true realistic dildo, to giant and extreme dildos and fantasy inspired sex toys. If you've ever wondered about "out of this world" fun, Hankey's Toys can be help.

Mr. Hankey Toys create the realistic dildos also realistic feels. They tell that toys are modeled real porn celebs.

Hmmm... where are these gigantic dick owners? or rabbits, aliens, seahorses? Let's hope they liberate them back to nature.

From the texture, firmness, length and width, Mr. Hankey's toys are designed to please. Mr. Hankey takes a lot of time and effort to develop each toy, each of toys are unique and meant to satisfy.

Tips and Instructions for the right Dildo size

Mr. Hankey's Toys dildos are available in several different sizes. Don't get confused this way you will avoid buying the wrong size. You can find tips and instructions for the right Dildo size.

So, read this before purchasing. You save both money and a big annoying moment when you buy the wrong size toy. Let's explore what's the right size for you now. Selecting the right size toy for your ability level and your goals is an important part of your purchase. If you get a toy that's too small then you'll quickly wish you'd gone bigger.

Important dimensions when choosing a new Mr. Hankey's dildo

- **Length - Overall and Insertable**
- **Circumference - Near Tip/Head, Middle, Base**

New to play? Start playing with a smaller one the average girth is 4.59 inches for an erect dick. If you're accustomed to dicks only, start playing with dildos with a circumference of 5-6 inches.

Dildo Girth and Circumference meaning

Mr. Hankey's Toys will tell you the dildo circumference from three different points and by comparing these you will be able to choose just the right size dildo for you.

Choosing the right size for your needs. When you choose the size of your new Mr. Hankey's toy dildo, it should be proportional to the size you used to be. So, do not forget about the circumference, because it also plays an important role on the way to your long-awaited satisfaction.

The circumferences of the dildo

- Circumference near head/tip
- Circumference near middle
- Circumference near base

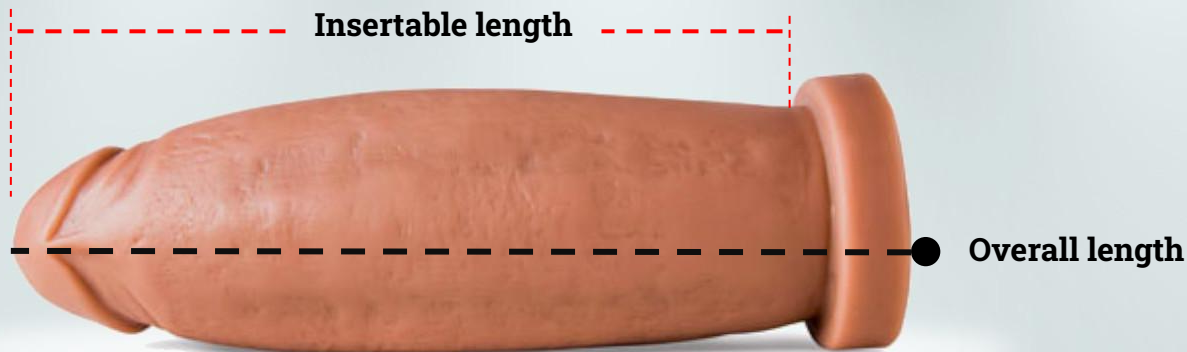

This is how you measure the size of your dildo

Measure the circumference of your current dildo so you know little bit more accuracy of what size dildo you are looking for. Take a measuring tape and measure your dildo to the thickest point.

Mr. Hankey's Toys states the dimensions in inches. If you are measuring in centimeters dildo consider the following. One inch is 2.54 centimeters.

Measure the following points from your dildo

- Circumference near head
- Circumference near middle
- Circumference near base

Choosing the Mr. Hankey's Toys dildo lengths

How to determine the length of a dildo. Total Length is the vertical length of the toy from the two farthest points. Mr. Hankey's Toys refer to this as Overall Length as well. Insertable Length is the length of the toy designed to be safely inserted.

In general, the longer the dildo the thicker it's going to be. This is because most realistic dildos use proportionate dimensions. So it is better to start moving by measuring the circumference of the dildos than the length. This way you are sure to find the right size.

Mr. Hankey's Toys dildo lengths

- Overall length
- Insertable length

—————
MEDIUM FIRM

—————
75% SOFT

Perfectly Firm

Mr. Hankey's Toys has done a lots of testing so they have come up with two perfect levels of firmness for their toys; Mr. Hankey's "Medium Firm" and "75% Soft" levels. Medium Firm level of firmness is firm but not too firm, more like a fully erect penis.

Mr. Hankey's Toys 75% Soft level is softer and more giving. This level of firmness is more like a penis that is 75-80% hard; still a bit soft yet fully functional and, according to their customers, a bit more "lifelike" feeling.

Aaron Klein dildo

SIZES: ORIGINAL | XL | XXL | 4XL

If you've been craving a thick meaty man with a nice fat head, look no further than the all-new Aaron Klein!

This toy features a 6" insertable length on the original size and goes all the way up to almost 12" at the biggest 4XL size. The most impressive part of this toy is the girthiness of the shaft that'll fill you up in all the right ways.

Compatible With Many Attachments, Strap-ons, and Sex Machines

If you purchase the attachment hole at checkout, you will be able to use their products with many attachments on the market. Simply purchase this option at the checkout point and you will be able to use your toy with your strap-on or sex machine.

Because of the weight of their toys, we recommend using a strap-on system that uses both a barb-style system with rings that are used to secure toys in place.

NEW DILDO

Michael Vegas

If you've noticed how Michael Vegas seems almost too good at playing a doctor, it's because he studied medicine and worked as an Emergency Medical Technician before bringing his built body into the world of porn.

Not manly enough yet? He was also a top firefighter... When Michael's not earning dozens of industry award nominations and taking home a pair of **XBIZ Best Actor** trophies, his favorite hobby is photographing beautiful women, and then giving them a full-body fucking that leaves them speechless and satiated.

Mr. Hankey's Toys Fantasy & Sci-Fi Dildos

At Hankey's Toys got it's own definition of "a monster dildo." For those customers who want to try something truly out-of-the-ordinary, something that even the most capable of partners' just wouldn't be able to give, Mr. Hankey's Toys line of exotic fantasy dildos is tailor-made to hit the spot.

Toys give sexually active folks the world over a chance to explore fantasies and sensations that conventional sex might not allow, and these dildos are designed to help make that fantasy all the more real. With shapes ranging from the humanoid to the positively outlandish, we're eager to help broaden your horizons.

One Step Beyond

If you're looking for something just a bit out of the ordinary, models like the Seahorse and Centaur make great choices. Still relatively humanoid, but featuring surface textures and shapes born from our designers' imagination, these fantasy dildos bring the best of both worlds.

Got a favorite monster dildo from our collection? Some of Mr. Hankey's toys might look like they bite, but we certainly know they do not! Browse these fantasy dildos range today and enjoy a whole new world.

Strap On 101: The What, The How, The Pegging

What is a strap-on? It's a dildo that a person—usually a woman—can wear. With the help of a harness to hold the strap-on in place, she can flip the script with her lover.

Pegging is a thrilling sexual practice that can change the dynamic and ramp up the pleasure of every participant.

If you're ready to figure out how to use a strap-on correctly, then Mister Hankey's Toys is here to demystify the practice.

Open your mind to a new experience that will bring the two of you closer while giving you the most powerful orgasms in your life. By the time you're done reading our handy guide, you'll be more than ready to pick out a strap-on for pegging.

The Practice of Pegging

What is a strap-on? It seems like an easy question, but you have to consider it in the context of pegging. Pegging is the act of anally penetrating your partner with the help of a strap-on dildo or vibrator. Typically, it specifically refers to a woman penetrating a man.

The practice is gaining in popularity, and we're so glad to hear it. Pegging can add to the intimacy and pleasure of your sexual escapades with your partner. It's also a wonderful way to introduce a man to his prostate. Stimulating the P-spot turns a man's orgasm into an out-of-this-world experience. The prostate is full of nerve endings, after all.

Choose the Right Strap-On(s) for the Job

Knowing what a strap-on is and what it's for is only half the battle. Picking out a strap-on for pegging is the other half. The two of you need to do this together, but take your boyfriend or husband's lead on this part of your adventure. It's up to him to decide on the size, shape, and thickness of the dildo. P-spot stimulation is one of the most thrilling things that a guy can do sexually. It's all the better if he has an eager, loving partner to give him a hand—so to speak.

However, we can't stress enough that he needs to feel comfortable with every part of the act. As such, he needs to choose a strap-on dildo that appeals to and excites him. Give him the freedom to choose the powerful piece that will soon be thrusting into him. It might be more comfortable to start slow—and small. With your assistance and an excellent stroke game, he can work his way up from small or medium.

Using Essential Accessories

Here's another question: what is a strap-on harness? A harness is what you wear to keep a strap-on firmly in place. Straps around the waist and thighs allow you to adjust it to fit.

All you have to do is ensure that the harness you choose is compatible with his desired dildo. You may need to buy additional O-rings to ensure that the dildo fits snugly in the harness.

A stable fit is vital for his pleasure and yours.

An adaptable harness that uses

O-rings can grow with you as a couple, meaning that you can move up to longer, thicker members.

To work out how to use a strap-on correctly, a butt bolt is a must-have accessory, as well. He might not be interested, so discuss the pros and cons. The main benefit is that a butt plug or stretching toy can prepare him for the roll of your hips and the thrust of your new cock.

Lube Him Up

Last but most certainly not least, here's the most important secret behind how to use a strap-on correctly: include lots of lube.

Engage in foreplay to get each other in the mood, at which time you can also get him ready for the pounding he's about to take. Go slow, too. There will be time enough for a frenzied bout of bedroom gymnastics, but in the very beginning, you need to go an inch at a time.

Give him time to get used to the dildo invading his most hidden places. Once he does, you'll both lose your minds. He'll beg you to go deeper, faster, and harder. What is a strap-on? It's the answer to your hottest dreams.

Explore your boundaries as a couple so that you can keep the sizzle in your sex life. Check out the selection at Mister Hankey's Toys for strap-ons, harnesses, O-rings, and plenty of lube, too.

Know the Ins & Outs of Dildo Texture & Firmness

Dildo texture comes in such a variety that it's safe to say there's a dildo out there for everybody who wants one. Whether you prefer a highly-textured but floppy dildo or a smooth, firm dildo, there's a toy out there that's made just for you.

To find your perfect match, you need to know what textures are available, how they feel, and whether your body will respond to a rock-hard dildo or something with a little give. Once again, Mr Hankey's is to help you on the journey to find the Golden Dildo.

Defining Dildo Texture. Dildos come in a range of textures. It comes down to the design and materials used. Platinum silicone, the material Hankey's Toys products are made with, is one of the best materials because it's versatile, safe for the body, non-porous, and easy to clean.

Mr. Hankey's firmness ranges from medium firm to about 75% softness: medium firm being a delightful firmness akin to a fully erect penis, and 75% soft offering a little more flexibility.

MEDIUM FIRM

75% SOFT

Keeping Texture and Firmness in Perspective

Dildo texture varies from brand to brand, manufacturer to manufacturer, and shop to shop. What's classed as soft at one place might be extra soft at another. What that means for you is that you need to do your research. Whenever possible, try to get your hands on a dildo before you try it.

That way you can squeeze it, bend it, and test the core firmness—or softness—yourself. Of course, if you visit an online store, that's obviously not possible, but you can still research the dildos in which you're interested before you commit to one. Check out sex toy reviews, first of all.

You can also read up on the specs of each toy you're thinking about trying. At Mister Hankey's Toys, for instance, our toys come in an array of textures, and many of them are also available in your choice of firmness or softness.

We give you all the details so you can find the toy that's perfect for you. That can make a difference in how you use the toy, how comfortable it feels, and whether it will work for your favorite sexcapades, so it's worth learning when a floppy dildo is the right pick and when you want something firmer.

The Texture Trick

As a rule, firm toys can hold texture better than softer toys. The firmer the toy is, the more texture stands out, especially the ridges and veins of realistic dildos and the titillating texture of fantasy options.

Harder toys force more definition, but the truth is that even a soft, floppy dildo can be pleasurably textured with life-like precision.

You might be highly stimulated by texture. That's great! Don't feel like you have to limit yourself to firm toys, though. The secret is to be a bit of a size queen.

Larger toys automatically feel harder, but they can be made of malleable silicone and other soft materials, as well. In fact, you might have more luck with a thicker dildo if you select something with a bit of give to it.

From Large to Small: A Takeaway Guide

The main thing to remember about dildo texture is that size matters nearly as much as material. In general, choose smooth, extra firm toys that are smaller.

These dildos are ideal for G-spot and P-spot stimulation. If you want to experiment with a girthy dildo, softer is better.

Go for something with a silicone core or a slightly floppy dildo that conforms to your body rather than making your body conform to it. The best way to figure out which dildo textures you like best is to experiment.

Consider a sampler pack of materials, for example. You can find that and more at Hankey's Toys.

How to Clean Mr. Hankey's Sex Toys?

As you finally got the courage to buy a sex toy to play with, or you've just introduced one of our new big boys into your play. But after a life-changing climax—that only a giant sex toy can give you—you now have to clean it.

So now what? What do you do? Getting dirty in the bedroom shouldn't be in reference to the cleanliness of your toys. We are proud to have an inclusive, sex-positive community that knows this!

Although it's not the most glamorous part of having a sex toy, cleaning your toy is necessary. Nobody wants some bacterial infection in their flowery booty hole or vagina or give one to their partner.

You don't want to destroy your sex toy by cleaning it incorrectly, either. To be safe, here are some tips on how to clean your giant sex toys to enjoy them for posterity.

When you properly clean your dildo, you will avoid spreading nasty diseases and enjoy more time climaxing. According to Brown University and Women's Health, how you clean a sex toy largely depends on what material the sex toy is made of.

Before you clean any toy, you need to make sure you know the type of material it's made of. Every material responds differently to cleansers, heat, and boiling water.

How to Clean Mr. Hankey's Sex Toys

To avoid damaging your product, read any instructions that come with its packaging. If this info is lost or missing, contact the company you bought it from to get information on your particular product.

Although there are many types of material, to narrow our scope in this article, we will only focus on how to clean silicone toys. Silicone is a pretty resilient material and cleaning silicone toys is pretty easy.

You can boil it, heat it up, and it can survive most cleansers and soaps without getting damaged. In fact, there are four easy ways to clean a dildo made of silicone: you can boil it for 10-15 minutes, throw it in the dishwasher, wash it with anti-bacterial soap under warm water, or use a state-of-the-art UV germicidal light which is purported to kill 99% of bacteria.

However, this latter method isn't perfect and does have its risks. When cleaning your device, keep these things in mind:

- Make sure you use small amounts of mild, fragrance-free soap or soap created for sex toys.
- Don't submerge any sex toy that contains electronic components underwater.
- After washing your toy, make sure you use a clean towel or cloth.
- Wash your toys before and after using them. Keep your toys in a dry, cool place.

How to Store Silicone Toys and Mr. Hankey's Sex Toys

After an amazing session stimulating your g-spot with your favorite monstrous dildo, it needs to be put away at some point. So how do you properly store your silicone sex toys? Since these sexual playthings are unlike anything in your house, you can't leave them just anywhere.

And unless you're very free spirit, you probably don't want guests seeing your giant dildo out on your coffee table, right?

How you display your prized collection is entirely your call. However, for healthy reasons, this is probably not the best idea.

They will collect dust and dirt and become a hotbed for bacteria. So what's the best way to store a dildo?

At Hankey's Toys, we are the sex toy experts and found the best ways to store your toys to help you get the most out of them. Read the sections below to learn more.

1. Store It In a Cloth Bag

How to properly store silicone sexy toys starts simply by choosing what material you should store them in. If you want to save money and don't want to splurge on storage, you can easily wrap your dildo in a clean cloth or towel, or place it in an inexpensive cloth bag.

It's cheap, and it will keep your dildo protected from dirt and dust.

You can find a cloth bag online or, if you want to go really cheap, use a clean towel you already own.

Don't just use any type of bag, though. Some material—like silicone, rubber, or gelatin—can absorb chemicals from plastic which may degrade the material quicker, so avoid plastic bags.

2. Store It In A Box

If you're looking for something a little more secure and discreet than a bag, a specialty storage box is your best bet. You can find specially made boxes for sex toys quite easily online. Many boxes have a combination lock or a slot to place your own.

A locked box is the best way to store a dildo securely, safe from prying eyes. It's also less likely to get damaged by water or from being crushed.

3. Don't Store Sex Toys Together

If fancy yourself as a connoisseur of bodacious and orgasmic-enabling sex toys and have your own collection, you need to store them carefully. Sex toys made from materials like silicone, rubber, and TPE can react to each other and may get ruined.

Fortunately, we at Hankey's Toys only use platinum silicone,

which does not damage our toys when placed next to each other.

It's a myth that silicone toys will melt each other, particularly in the case of high-grade materials like ours. Still, for hygiene purposes, and if you are storing toys from multiple brands in one place (where the silicone may not be platinum silicone), we recommend storing your toys individually.

4. Inspect Your Sex Toy Before and After Storing It

If you have a sex toy that's old, falling apart, or is no longer in use, it may be time to throw it out. Inspecting your toys is a great way to keep track of their condition. This way you won't pull out a disaster of a dildo that will make your partner run for the hills.

Having a collection can be great, who doesn't want variation, but holding on to a toy past its prime is probably not the best idea.

Frequently Asked Questions About Mr. Hankey's Toys

Here's Frequently Asked Questions About Mr. Hankey's Toys.

What is Platinum Silicone in sex toys, dildos and anal plugs?

Platinum Silicone is High-end sex toy material. It's one of the safest materials from which sex toys can be made. It's the same thing used in medical devices and for special effects in the movie industry. It's certified to be used in skin contact applications, is hypo-allergenic, can be easily disinfected, is non-porous, doesn't degrade when cared for properly, and can be made in different firmness levels to simulate the feeling of the real thing. It's the safest and most comfortable thing that a toy can be made of.

How to Store Mr. Hankey's Toys dildos? The best way to store a silicone dildo?

The Best tips is store a dildo in a cloth bag. Also, you can store a dildo In A Box. If you want to save money and don't want to splurge on storage, you can easily wrap your dildo in a clean cloth or towel, or place it in an inexpensive cloth bag. Some material—like silicone, rubber, or gelatin – can absorb chemicals from plastic which may degrade the material quicker, so avoid plastic bags. Remember this, Don't Store Sex Toys Together. Platinum silicone, which does not damage our toys when placed next to each other. Some Sex toys made from materials like silicone, rubber, and TPE can react to each other and may get ruined.

What lubricant can I use with Mr. Hankey's Toys dildo?

You can use any lubricant on Mr. Hankey's Toys dildos. Any, even silicone. High-grade platinum silicone dildos and Sex Toys does not melt when placed in contact with silicone lube or other silicone toys; this is a myth. Manufacturer's of platinum silicone dildos and sex toys who say their toys will melt when placed in contact with other silicone toys or when used with silicone lubricants are either selling something other than high grade platinum silicone, or are not very knowledgeable.

What is the difference between Mr. Hankey's dildos Medium Firm and 75% Soft toy

The best way to explain the difference is to compare our two levels of firmness to an erect penis. Our "Medium Firm" level of firmness is more similar to a fully erect penis while our "75% Soft" firmness is more similar to a penis that is 75-80% erect; easier to bend and nominally more flexible. Customers generally report that our 75% Soft formula feels more lifelike. It really all depends on whether you prefer your toys on the firmer side or softer side.

I bought a too big Mr. Hankey's dildo, Can I return it?

One of the most common mistakes that customers make is placing an order for a toy that is too big. Mr. Hankey's Toys do not accept returns on orders where the customer has misjudged the size of toy, please pay close attention to the specifications of the toy your are ordering.

Can I order one of the toys in your shop with custom dimensions?

Unfortunately, no. Our toys come from molds and the dimensions cannot be altered. You cannot order a toy in our shop in custom dimensions.

Do you ever sell toys at a discount from orders that have been canceled?

Yes we do. Mr. Hankey's almost always have toys that we sell at a discount. We only sell these toys in bulk lots, but at highly discounted rates. Customers cannot choose and pick from the lot, and lot sales are "all or nothing". If you would like to inquire about purchasing a bulk lot of toys, please contact Mr. Hankey's at mail Serious inquiries ONLY please.

Are there any countries that have unreliable postal systems, and what risks do I assume if I place an order from one of these countries?

Yes. Belarus, Ivory Coast, Cuba, Iran, North Korea, China, Myanmar, Russian Federation, Sudan, Syrian Arab Republic, Zimbabwe, Brasil, Chile, India, Indonesia, Thailand, and Mexico all have some form of problem with either their customs or postal systems and may have a lower rate of success with deliveries. PLEASE BE AWARE: If you place an order from any of these international locations and you encounter any type of negative issue associated with your country's customs department. If your package is lost in transit once tracking shows your package has left the United States, stolen or damaged, YOU, THE BUYER, ASSUMES ALL RISK – NO EXCEPTIONS. If you place an order from any of the above countries, we advise that you [purchase additional insurance from shop](#).

Do Mr. Hankey's Toys ship to Colombia, Mexico, Russia, Brazil, Chile, India, Indonesia or Thailand?
Yes, but be aware that the customer assumes the risk when shipping to a country with an unreliable postal system. Protect your purchase during shipping by [insuring safe delivery through](#)

Do I need a PayPal account to make a purchase from Mr. Hankey's Toys?

While Mr. Hankey's Toys [online Store](#) use PayPal to make things easy for our customers, They happily accept credit or debit card, if you prefer those over PayPal.

What would be a good comparison as far as Mr. Hankey's Toys dildos the softness firmness difference?

The best way to explain the difference is to compare our two levels of firmness to an erect penis. Our "Medium Firm" level of firmness is more similar to a fully erect penis while our "75% Soft" firmness is more similar to a penis that is 75-80% erect; easier to bend and nominally more flexible. Customers generally report that our 75% Soft formula feels more lifelike. It really all depends on whether you prefer your toys on the firmer side or softer side.

Do Mr. Hankeys Toys sell gift cards?

Yes, Mr. Hankey's Toys sell you a coupon code good for the value you pay. Our coupon codes are good for 12 months and must be used within that time period. There are no refunds on purchased coupon codes. Please contact Mr. Hankey's at [mail](#) if you would like to purchase a coupon code.

Can you explain what a Vac-U-Hole is and what care should be used around this part of the toy?

This is an attachment hole. Many 3rd party retailers sell attachments such as handles, suction cups and even some sex machines may be compatible.

The user should be very careful around this part of the toy. We do not trim the edge of this hole and it will be prone to chipping and splitting if not used correctly. Very little side force should be used with this hole, it may split. Caution should be used when inserting any attachment. A small amount of dish soap, baby powder, lube, etc. should be used when inserting any attachment.

Chipping (not splitting) is common and may result in small chipped areas around the perimeter of the hole. This is typically harmless as these rarely spread or grow and typically won't affect the toys use. If a split forms, it should be repaired. A common glue used to mend splits is called Sil-Poxy.

Packing, Unpacking and Mr. Hankey's Toys Promo code, discount codes and promotional codes

Mr. Hankey's Toys packaging is very discreet, all products are shipped in a plain brown box with no associated return address. If you are within the US, your order will be shipped via USPS. International

What is Platinum Silicone in sex toys, dildos and anal plugs?

Platinum Silicone is High-end sex toy material. It's one of the safest materials from which sex toys can be made. It's the same thing used in medical devices and for special effects in the movie industry. It's certified to be used in skin contact applications, is hypo-allergenic, can be easily disinfected, is non-porous, doesn't degrade when cared for properly, and can be made in different firmness levels to simulate the feeling of the real thing. It's the safest and most comfortable thing that a toy can be made of.

There is a hole in the shrink wrap on my toy, is this bad?

No, your shrink wrap is just to keep off dust and dirt, etc. in transit but is not meant to keep your toy 'sterile' in any way. Holes are common in our shrink wrap due to the heating process. This is not a concern. You should simply wash your toy after unwrapping it to ensure that it's cleaned before use. Any soap and water will do.

How to Store Mr. Hankey's Toys dildos? The best way to store a silicone dildo?

The Best tip is store a dildo in a cloth bag. Also, you can store a dildo In A Box. If you want to save money and don't want to splurge on storage, you can easily wrap your dildo in a clean cloth or towel, or place it in an inexpensive cloth bag. Some material-like silicone, rubber, or gelatin – can absorb chemicals from plastic which may degrade the material quicker, so avoid plastic bags. Remember this, Don't Store Sex Toys Together. Platinum silicone, which does not damage our toys when placed next to each other. Some Sex toys made from materials like silicone, rubber, and TPE can react to each other and may get ruined.

Do Mr. Hankey's Toys have a phone number and how fast do you respond to emails?

We manage all communication via email, to help us keep track of our correspondence. If you would like to contact us, you can send us an email from our [Contact & Retailers page](#), or email us directly at [mail](#). We generally respond to emails between the hours of 7:00am-5:00pm PST Monday through Saturday. We aim to respond within 24 hours, though you can usually expect to hear from us promptly. If you are emailing us regarding an order, please include your first and last name, and your 5-digit order number, so that we can pull up your order.

After I place my order, when will it be shipped, where is the tracking information and how long until it arrives? (NOT applicable in December to mid-January)

If you are inside the US, your order will take approximately 2-5 days to arrive via USPS Priority mail. Orders from the West Coast generally arrive 2-3 days after being shipped. Orders from the East Coast generally arrive in 3-5 days after being shipped. Orders from the Midwest can vary between 2 and 4 days. This is only an estimate of transit time, and actual shipping times may vary.

If you are outside the US, your order will be shipped to you via FedEx or USPS Priority Mail and should

arrive within 3-10 days. We ask that customers please allow up to 8 weeks on all international orders. We typically ship via FedEx on most international orders, but we're required to use USPS when shipping to certain destination countries. We reserve the right to select the carrier at the time of shipping.

Because we generally incur a loss on shipping costs, we reserve the right to select the most affordable shipping option, and may select a carrier based on cost. We reserve the right to select the shipping carrier at all times.

After you place your order, you will receive an automated tracking information to the email you provided. This tracking information is automatically sent once your shipping label is printed, but it does not mean that your order has shipped. Orders will typically ship according to the schedule below. If you cannot find your tracking information, check your spam folder or check another email account you may have used. If you still cannot find your tracking information, then contact us and we will assist you.

Orders are generally manufactured according to the schedule below. This can vary depending on the volume of orders we're experiencing. During sales or

new product releases, you may experience an additional wait time of 1-3 days.

What is your estimated manufacturing & shipping schedule?

If you place your order on one of the following days before 3:00pm PST: Monday - it will typically be manufactured on Tuesday and shipped Wednesday. Tuesday - it will typically be manufactured on Wednesday and shipped Thursday. Wednesday - it will typically be manufactured on Thursday and shipped on Friday. Thursday - it will typically be manufactured on Friday and shipped on Saturday. Friday - it will typically be manufactured on Saturday and shipped on Monday. Saturday - it will typically be manufactured on Tuesday and shipped on Wednesday. Sunday - it will typically be manufactured on Tuesday and shipped on Wednesday.

*These are estimates only. Your order may take slightly longer to ship depending on orders in line ahead of yours.

Do Mr. Hankey's Toys have a phone number and how fast do you respond to emails?

We manage all communication via email, to help us keep track of our correspondence. If you would like to contact us, you can send us an email from our [Contact & Retailers page](#), or email us directly at [mail](#). We generally respond to emails between the hours of 7:00am-5:00pm PST Monday through Saturday. We aim to respond within 24 hours, though you can usually expect to hear from us promptly. If you are emailing us regarding an order, please include your first and last name, and your 5-digit order number, so that we can pull up your order.

Do Mr. Hankey's Toys accept returns or refunds?

Due to the nature of the products we sell, we unfortunately cannot take returns once your toy leaves our shop. You can cancel your order if it has not been shipped. If your order has been manufactured but not shipped, any cancellation after that point will incur a 50% restocking fee. If your order has not been manufactured at time of cancellation, you will incur no restocking fee and will receive a full refund. (Please see FAQ question "I Placed an order and now I want to cancel it. What do I do?").

If you notice a defect with your product, simply contact us and we will take care of it. One of the most common mistakes that customers make is placing an order for a toy that is too big. We do not accept returns on orders where the customer has misjudged the size of toy; please pay close attention to the specifications of the toy you are ordering. Specifications for each toy are listed near the bottom of each toy's product page. If you have any questions, please contact us prior to placing your order.

What are Mr. Hankey's Toys shipping costs and is the packaging discreet?

If you are in the United States, shipping costs a flat \$16.35 no matter how many toys you order. If you are outside the United States, shipping costs only \$29.95USD. Our packaging is very discreet, all products are shipped in a plain brown box with no associated return address. If you are within the US, your order will be shipped via USPS. International orders will be shipped via FedEx or USPS at our discretion.

Am I responsible for paying import taxes or other fees charged by my government?

Yes, the customer is responsible for paying any Value Added Tax (VAT), fees or other charges imposed by your country or jurisdiction. It is the customer's responsibility to fulfill any taxes and fees that may be applied to any imported items, which are naturally subject to change according to country and jurisdiction.

If you do not pay taxes or fees to receive your package levied by your country's customs department, or other government agency, your package may be returned to us. We do not accept refunds once your package is shipped unless there is a defect with the product. Be aware that if your package is returned to us because you refused to pay any associated taxes or fees, you will not be refunded and your item will be destroyed.

Do I need a PayPal account to make a purchase?

While we use PayPal to make things easy for our customers, we happily accept credit or debit card, if you prefer those over PayPal.

What is the difference between your "Medium Firm" and "75% Soft"? Can I order a softer or firmer toy?

Hankey's Toys offers two standard levels of firmness for you to choose from when selecting from the drop-down menu: "medium-firm" and "75% soft."

The best way to explain the difference is to compare our two levels of firmness to an erect penis. Our "Medium Firm" level of firmness is more similar to a fully erect penis while our "75% Soft" firmness is more similar to a penis that is 75-80% erect; easier to bend and nominally more flexible. Our customers generally report that our 75% Soft formula feels more lifelike. It really all depends on whether you prefer your toys on the firmer side or softer side.

We can, at an additional charge, make your toy softer or firmer. Simply add the Custom Firmness Option onto your cart and check out. Email us your name, order number and firmness request. We will confirm that we have received your request. There is no need to contact us prior to placing your order. For a detailed breakdown of [firmness options](#).

Do Hankey's offers signature confirmation or insurance to protect orders that could be lost or stolen after being shipped?

Although it's extremely rare, the possibility does exist for your package to be lost or stolen on its way to you.

We ask that all customers provide a safe location to receive their package. If your location is not safe, or you live in an apartment or other place where multiple people may have access to your package, we suggest that you add signature confirmation. You can add signature confirmation by sending us an email immediately after placing your order. Include your order number, name and request signature confirmation. Most customers do not want signature confirmation so we do not make this mandatory - you must add this to your order by emailing us if you would like this option.

Unfortunately, we do not cover replacement items for lost and stolen orders. However, we do offer optional [insurance](#) on all our items this is located at the bottom of any Shop page.

There is an oily substance on my toy, should I wash it before using it?

Yes. One thing we do to help keep our costs lower than our competitors is to not wash the toys after production before they are shipped; we leave that up to the customer. Your toy will most likely have an oily or greasy substance on it. This is a release agent, such as vaseline or similar, that is used to keep your toy from adhering to the mold. This release agent is harmless but should be washed off prior to use. Our materials are tested for a variety of dangerous

chemicals, and all of our products are 100% to use on delivery (once you wash them off). To view our most recent testing results, click [here](#).

What lube can I use with your toys?

Any, even silicone. High-grade platinum silicone does not melt when placed in contact with silicone lube or other silicone toys; this is a myth. Manufacturer's of platinum silicone toys who say their toys will melt when placed in contact with other silicone toys or when used with silicone lubricants are either selling something other than high grade platinum silicone, or are not very knowledgeable. You can use any lubricant with any Mr. Hankey's product.

Are your products skin safe? Are they medical-grade?

The platinum silicone used in our products is made in the United States and certified by an independent laboratory to ISO 10993-10. Biological evaluation of medical devices, Part 10, tests for irritation and skin sensitization. This does not mean that our silicone is medical grade; you should not surgically implant a Boss Hogg Dildo into someone's chest. What this does mean is that it can be placed in contact with human skin with no concern of adverse reactions. For example, prosthetics may use this type of silicone.

Silicone toy manufacturers do not use true medical-grade silicone for toys, not the type that can be surgically implanted. In fact, most toy makers do not use a platinum silicone that is certified skin safe. Unless they can say it's ISO certified skin safe, they really don't know. You can view our most recent testing results [here](#). We routinely test our products for contaminants and/or harmful chemicals or substances.

Do Remove-O-Balls reduce the insertable length of the toy?

Yes, by approximately one inch or less.

Do your toys vary in color or other characteristics?

Yes. Since Mr. Hankey's toys are [handmade](#), there will be slight differences in appearance between toys, no two toys are 100% identical. You may see slight marks or other imperfections on your toy that you may not see on another toy. This may be due to slight differences with our molds, or this can be related to our release agents, which are added to the molds and can create slight differences in textures between toys.

Our colors are hand-mixed in batches. When a batch of color runs out, a new batch is mixed. This new color will be similar to the last batch but never identical.

Our molds may expand slightly or contract over time, and this may cause slight variances in sizes with our toys. These differences are typically negligible. The specifications listed at the bottom of each product page are for general guidance only, the actual dimensions of your toy may vary slightly.

Toys may vary from the product photos slightly. They may contain small markings, colors or other characteristics that are not shown in the product photo for various reasons. Please remember, these

are handmade items and can vary slightly from one toy to the next.

Can your toys be heated up?

Yes. Start off with two minutes in the microwave and adjust from there. Our silicone can be heated up to very high temperatures, but only recommend keeping it comfortably warm to avoid bodily harm.

I found a few coupon codes online, can I apply them all?

No. You can only apply one (1) coupon code from any outside source per order. The only coupon code that you may apply multiple times are coupon codes from our homepage. Any other coupon codes are limited to one (1) per order, and cannot be combined with other outside source codes.

There is a hole in the shrink wrap on my toy, is this bad?

No, your shrink wrap is just to keep off dust and dirt, etc. in transit but is not meant to keep your toy 'sterile' in any way. Holes are common in our shrink wrap due to the heating process. This is not a concern. You should simply wash your toy after unwrapping it to ensure that it's cleaned before use. Any soap and water will do.
